ALOE VERA

The queen of medicinal plants

01

02

PARABEN FREE

BIO ALOE VERA

For thousands of years Aloe Vera has been valued as a medicinal plant and even miraculous by some ancient cultures.

Vegas Cosmetics created this line with an average of 50% natural Aloe Vera, developing a high quality beauty concept suitable for every skin type. Through a unique process, these products include high amounts of Aloe Vera pulp extract from organic cultivation.

hyaluron care

Superlative Anti-Aging Concept

hyaluron care

Enjoy an unique luxury treatment!

This new anti-aging concept will inspire you. Based on recent results about hyaluronic acid and its effect in the anti-aging field, this skincare concept has been developed for your beauty by Vegas Cosmetics.
The combination of valuable peptides with natural polymers results into firm and smooth skin, reactivating its youthful beauty.

Take advantage of this valuable and effective skin care line for the youthful appearance of your skin. In addition, we recommend our Hyaluron capsules from Vegas Vital, our supplements and vitamins' brand.

- Rechargeable lithium batteries conveniently allow for flexibility in location and time of usage
- Safety goggles and cable included

Code: 460

SKIN CELL TRONIC

The modern anti-aging technology has a new star: Skin Cell Tronic. The point of this incredible technology: to reduce the traces of time, gently and effectively.

This equipment uses the advanced technology of ultrasound, with contemporary LED light, which leads to the gentle and effective reduction of wrinkles, pores, cellulite symptoms and small scars!
The application results in a more elastic, smoother skin that appears more youthful and fresh. With this genious device you massage and tighten your skin.
For people with a pronounced awareness of beauty and who are not in favour of radical intervention with unpleasant pain and “crude scalpel”, ultrasound therapy is a wonderful alternative.

This cosmetic device is very versatile when used in combination with Vegas products, especially on the face, neck and cleavage. To use this device, guide the sound waves in circular motions over your skin.

Skin Cell Tronic- Functions & Effect

Ionisation: Ensures that, with galvanic direct current, the molecules of the hyaluronic acid are converted into ions, and transported into the deep layers of skin.

Ultra sound: Its 3 million gentle pulses per second provide a massaging effect, which percolates into deeper skin layers. The inclusion of hyaluronic gel in the treatment improves the skin’s production of collagen and elastin.

Photo therapy: Cold LED light in low frequency range provides for differing effects with its three colours.
Blue: Reduces inflammation and calms the skin.
Red: Promotes the production of collagen and elastin in the skin.
Green: Relaxes the face muscles and oxygen enrichment of the skin.

The Skin Cell Tronic-Effect has a very intense effect with immediately visible results. Secure the future of cosmetic treatment at home.
The effectiveness has been proved by a scientific study at TU Darmstadt!

SKIN CELL TRONIC & HYALURON: Aesthetics With High Standards

Care for the beauty of your skin at the highest level!
Our own face reflects our emotional state. Every day through various facial expressions such as smiling, or frowning, about 15.000 facial expressions will be made and thus wrinkling occurs, especially in the highly stressed regions such as the forehead, eyes, mouth and nose. High quality sera bind a lot of moisture and stimulate the formation of new collagen and elastin, whereby the regeneration capability of the skin is supported.
Due to this special property to bind and store large amounts of moisture, the volume of the connective tissue and the skin is strengthened. This provides more firmness, wrinkles and skin irregularities are smoother and the depth of wrinkles is reduced. Small sunken scars can be reduced in terms of their skin depth. Even in the case of stretch marks.

Vegas Cosmetics uses exclusively hyaluronic acid, which is produced by fermentation of plant extracts (in many cases Hyaluron extracted from cockscombs or cow's eyes). This natural production process guarantees that the product contains no animal ingredients, but that Hyaluron molecules can be easily absorbed by the body. This has been demonstrated by clinical studies!
If you use Hyaluron, your pigmentation spots can fade and larger pores become smaller. Just where it shows most: on the face, neck, cleavage and hands!
For all beauty conscious people, it is particularly worthwhile to use Hyaluron. The application is recommended as follows: apply in the morning and at night after cleansing, massage gently and after absorption apply a moisturizing cream. Idealy our Anti-Aging Hyaluronic or Q10 series.

sensitive CONCEPT

The care series has been specially developed for greasy, sensitive skin types, which tend to resent impurities, but it can also be ideal for combination skin types.
The skin is cleansed with panthenol and glycerine without drying out.
A complex of active ingredients of salicylic acid and zinc has an antimicrobial and inflammation reducing effect that stimulates the regulation of sebum on the skin.
